AGES 3-5 GIFT GUIDE

Pop the Pig Game

Good for turn taking, number recognition and matching. great for targeting following directions, color identification, reinforcer for targeting articulation sounds, and requesting in younger kids. It is super beneficial because the game is very engaging and fun!

[LEARN MORE](#)

Surprise Boxes

Fun game with surprises at every turn! Great for developing vocabulary and can be used in lots of ways - counting, colors, labeling, actions, etc!

[LEARN MORE](#)

Quiet Loud Book

Helps teach the concepts of Quiet and Loud and how a child can think about their own volume when they are talking. There are several great books in this series.

[LEARN MORE](#)

Water Beads

Sensory toy that can build on tactile tolerance and fine motor coordination skills especially when adding tools to retrieving specific colors or other toys placed into the mix.

[LEARN MORE](#)

Big Feelings Pineapple

Teaches the most basic emotions. idea of using a toy to create a face for an emotion, then to see if the child can imitate the facial expression, as well as having a parent show an emotion and see if the child can guess it. Learning about emotions is a great way to help children be able to communicate about what's going on in their internal life as they develop speech

AGES 3-5 GIFT GUIDE

Pie Sorting Game

Works on a variety of sorting beyond just colors. In addition, it works on grasp coordination. As the child improves and gains skill you can add to this game by using different types of tongs, tweezers, etc

[LEARN MORE](#)

Play Food Set

Group food into different categories (breakfast, lunch, vegetables, sweets). Pretend to make food while practicing sequencing skills. Work on the verbs "cook," "eat," and "give." Work on requesting. This list is also endless!

[LEARN MORE](#)

Magnatiles

These fun magnetic tiles target early language skills. works on requesting, labeling colors, labeling shapes, creativity of making and constructing different things. Endless learning opportunities!

[LEARN MORE](#)

Magnetic Dress Up People

Great for labeling clothing items, requesting, commenting with 2-3 word phrases and identifying pronouns. Fun open-ended play!

[LEARN MORE](#)

Wooden Pattern Blocks

This fun game activity works on bilateral coordination, eye-hand coordination, and visual motor integration. This also challenges a child's patience when trying to accurately place blocks. What's great about this set is that the cards offer the answers on one side and the assembled picture on the other side so parents do not have to struggle as well!

AGES 3-5 GIFT GUIDE

Little Tikes Trampoline

Fun toy that targets increased leg strength, endurance, and coordination! Great way to burn some energy too!

[LEARN MORE](#)

Building Blocks

Classic, toy that encourages following directions, turn-taking, shapes, you can build tall and short towers, you can work on patterns...red, blue, red, blue...what comes next?

[LEARN MORE](#)

Wind-Up Robots (5 pc set)

Wind-up toys are excellent conversation-starters that will get kids talking. For children who are not bothered by the sound that the wind-up toy makes- these require an adult to wind-up, because young kids don't have the motor skills to wind up independently. This gives an opportunity to make a request.
